

In 60 years' time there will be lots of new technology.

Perhaps this will make our homes look very different.

Create a plan drawing of your imaginary home of 60 years' in the future.

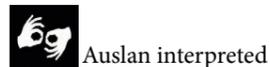

Later when you get home, you could turn your drawing into a model made from recycled things.

## *Lismore 2074: Our Future Present*

by Duke Albada based on conversations with Lismore residents

1 November – 14 December 2014

This is the year 2014 and the 60th anniversary of Lismore Regional Gallery. To recognise 60 years' of the Gallery being here in Lismore we invited artist Duke Albada to create project, in which the community of Lismore were asked

***"How do you imagine Lismore in 2074?"***

Yes in 60 years' time it will be the year 2074. Wow!!!

That seems like a long long time away.

In 60 years' the world will be quite a different place, maybe there will be flying cars and roads made out of rubber so kids can bounce all the way to school.

Artist Duke Albada asked lots of questions and listened to many answers about what the future might bring. She recorded these stories and quotes from people to create a sculptural installation in the Gallery, that includes sound recordings and quotes from people about their ideas of the future, printed on fabric banners.

**This activity sheet has a few different questions and fun things for you to do while you think about the world in 60 years' time. You can answer the questions, draw pictures and dream up the adventures you will have in 60 years'...**

Artist Duke Albada asked people questions about the Lismore of the Future...

What are your hopes and ideas for your home town 60 years' in the future?

1. What do you love about your home town now?

2. What do you think your home town will look like 60 years' time and how will we live differently?

Draw a picture of what you think your home town will look like in 60 years'.

How about YOU? You will look very different 60 years' time.

1. What do you think you will look like in the year 2074?

2. What will you be doing in 2074?

Draw yourself in 60 years' time... Or write a story about some adventures you imagine for your future..
